EQUINE MULTI-VITAMIN AND MINERAL SUPPLEMENT

Only the purest 'human grade' ingredients have been used in this product. All ingredients are sourced from **NATURAL** base materials, conducive to horses.

This complete Multi-vitamin and mineral supplement has been specifically formulated that together with fair concentrates and good grass, will fully meet your entire horse's natural vitamin & mineral requirements, be they competition, hacks or breeding horses in illness and in health.

Complete multi-vitamin and mineral supplementation will promote:

- ✓ INCREASED FOOD UTILISATION – will require less concentrates
- ✓ IMPROVED PLIABILITY AND STRENGTH OF HOOVES - no hoof no horse
- ✓ LESS ORTHOPAEDIC PROBLEMS – promotes better bone density
- ✓ BOOST BODY TEMPERATURE REGULATION – less winter coat
- ✓ ADVANCED TISSUE REPAIR AND WOUND HEALING –internal as well
- ✓ PROMOTES FERTILITY AND FOAL DEVELOPMENT – bigger stronger foals
- ✓ TOTAL VITALITY AND CONDITION – less vet bills

DOSAGE:

20 grams of PROMIX Multi-vitamin and minerals both morning and night (40 grams per day), mixed into their regular feed, add a little cold water if necessary. The dosage prescribed is for the average-sized horse (500 kg) under normal working conditions.

Increased dosages are recommended for:

- Infirm, ill and injured horses
- Pregnant and lactating mares
- Foals & weanlings
- Stallions

What is most significant is the owner's eye that judges their horse's general condition.
